TERRA COTTA and SCAGLIOLA manufactured by J. M. BLASHFIELD, Mill Wall, Isle of Dogs, and sold at No. 1 Wharf, Pratt-street, Poultry.
Vases, friezes, trophies, capitals, cusps of arches, chimney shafts, trusses, flower pots, and all ornamental work required to stand heat and frost without cracking or changing colour, may be had at nearly the same cost as casting in cement.
Terra Cotta is more durable than iron, granite, marble, or stone, and may be made of black, red, and local stone mixture of every shade. It can be more undercut and delicately wrought than either stone or marble, and architects can have their own designs modelled and fired in this material without moulding and the absence of copyings from the hands of the artist.

PRIZE MEDAL for TERRA COTTA to M. H. BLANCHARD, late of Castle's Original Works, being awarded for quality of Material and Workmanship.
M. H. B. begs to call the attention of the Nobility, Gentry, Architects, Builders, &c. to this invaluable and imperishable material that has been and is now adopted by our eminent Architects and others in the enhancement of our noblest buildings, is being applicable to groups, statues, friezes, capitals, panelling, festoon ornaments, Tudor and other ornamental flowers, foliations, finishings, trusses, cusps of arches, dormers, balustrades, ridging, and every description of Architectural embellishment, at prices, &c., defying competition.
Works, King Edward-street, Westminster-road, London.

ATKINSON'S CEMENT, so long known and esteemed in London, for plastering purposes, is a quick-setting cement (superior to imported), and is exclusively by JOHN BAZLEY WHITE and SONS, Millbank-street, Westminster, and Steel-street, Liverpool.

KEENE'S and PARIAN CEMENTS and FRENCH PLASTER for internal uses.—These well known hard cements dry quickly, and can be painted upon within a few days. Made and sold by JOHN BAZLEY WHITE and SONS, Millbank-street, Westminster.

PORTLAND CEMENT is the cheapest, because the best Cement for external uses. As a stucco, it requires no colouring, does not vegetate, and is not affected by frost. As a mortar for brick-work, it may be mixed with three to four parts of sand; and, for concrete, it will carry ten to twelve times its volume of sand and gravel.—Manufactured by JOHN BAZLEY WHITE and SONS, 17, Millbank-street, Westminster, and Steel-street, Liverpool.

PORTLAND CEMENT.—The difficulty of properties this valuable Cement of uniform colour and strength has hitherto prevented its more general use. Consumers and Builders will find that these two important qualities may be depended on with the greatest certainty in that manufactured by C. J. HILTON, at his Roman and Portland Cement and Plaster of Paris Works, Faversham, Kent, at which place, as also at his Wharf in London, 6, Upper Thames-street, City, and Great Scotland-yard, Westminster, orders can now be received to any extent.

PORTLAND CEMENT WORKS, NORTH-FLEET, KENT.—Messrs ROBINS and CO. solicit the attention of their friends and the public to their superior Cement, confident that the great improvement in the manufacture thereof during the present year will insure to them a continuance of that patronage with which they have so long been favoured.—Orders received at the Works, and at Great Scotland-yard, Whitehall.
March, 1858.

PORTLAND CEMENT.—JAMES WESTON, having commenced manufacturing the above Cement, begs to inform the trade in general that he can supply them with any quantity they may require, either at his Works, Mill wall, Poplar; St. Andrew's Wharf, East-cheap, Blackfriars; or Middle Scotland-yard, Westminster, Manufacturer of Roman, Lias, and Keene Cements, French and English Plaster, &c.

PATENT PORTLAND and ROMAN CEMENTS.—WINKFIELD, BELL, and CO. of East Greenwich, Kent, having now completed some heavy contracts, are prepared to execute orders to any extent for either of the above Cements, which they are quite prepared to prove exceed any others in their cementitious qualities at present manufacturing. Many highly respectable references can be given where their Cements have been successfully used. Orders addressed to their Works will be punctually attended to, and terms sent. Where quantities are named a particular price will be made.—Agent at Southampton, Mr. GEORGE SHARPE, Union Wharf.

PORTLAND CEMENT, in Casks of Four Imperial Bushels QUANTITY, NOT WEIGHT, BEING THE STANDARD.—CHAS. FRANCIS and SONS, Cement Works, Nine Elms, London.

6, South Wharf, Paddington.

PORTLAND CEMENT.—CHARLES RICHARDSON has the greatest confidence in introducing to the trade the above superior CEMENT, being of uniform colour and quality in consideration never before attained in Portland Cements. It possesses extraordinary cementitious qualities, resists the action of frost and heat, and is more durable than any other Cement; does not vegetate, turn green, or crack, combined with which its eminent hydraulic properties stamp it at once as the first cement of the day for work where all the above qualities are requisite. It is manufactured on the only principle Portland Cement can be, and contrary to the statements put forth by those who have hitherto had the monopoly. Manufactured by R. GREAVES, Esq. at his Works, near the River Avon, and sent to all parts of the kingdom per boat or rail, at a reduced price to the trade.

ROMAN and OTHER CEMENTS, Manufactured by J. M. BLASHFIELD, successor to the Patentees, PARKER and WYATT, who, in 1796, first introduced PARKER'S ROMAN CEMENT; also Terras and Portland Cements, English and French Plaster, Terra Cotta Chimney Pots, Trusses, &c.
Manufactory, Mill Wall, Poplar; Depôts, Commercial-road, Lambeth, and Paddington-basin.

GEORGE and THOMAS EARLE, CEMENT MANUFACTURERS, HULL.
Light and Dark equal to any made.
Also, Manufacturers of PLASTER, MASTIC, &c.
Importers of MARBLE and PUZZOLANA.
Dealers in Slates, Slabs, Hair, Whiting, &c.

PERMANENT STUCCO WASH, WITHOUT SIZE OR OTHER CORRUPTIBLE INGREDIENT.
As used at St. George's Hospital, Hyde Park Corner.
JOHNS and CO. having effected some important improvements in the manufacture of this very useful material, confidently offer it to the notice of the Trade and the Public generally, as the best for every description, over the common Lime Wash or Water Colour for STUCCO or BRICK WORK. It is a Stone Colour, but may be tinted to any other.—DOES NOT WASH OFF—is perfectly dry in twenty-four hours, and, being a non-absorbent, is admirably adapted for Railway Stations, Union Workhouses, Barracks, Schools, Prisons, &c. One coat will cover 20 square yards. It will keep good for years, and MAY BE EXPORTED WITH PERFECT SAFETY.
JOHNS and CO.'S STUCCO CEMENT.—This cement, from the great reduction in price, and its establishment for internal as well as external surfaces, places it above all other materials of its kind; it has no caustic qualities; may be painted or papered in a few days; never cracks, or vegetates; resists dampness to an extraordinary degree, and may be cleaned with a brush and water.
The merits of the PAINT are well known for its applications to stucco-work of all kinds, and external work generally. Numerous testimonials, prospectuses, and every information may be obtained, on application to the Sole Agents, PHILIP HARE and Co. at the Warehouse, 36, Steel-yard, Upper Thames-street. A liberal allowance to wholesale dealers.

PARIAN CEMENT for internal use, to be PAINTED IN A FEW HOURS AND PAPERED WITHIN A COUPLE OF DAYS.—CHARLES FRANCIS and SONS, Patentees, Nine Elms, London.

MEDINA (ROMAN) CEMENT.—The material of which this cement is made is obtained in the Isle of Wight. It bears all the properties of the Sheppey Stone, but is much better adapted to engineering works, from the rapidity with which it sets and hardens under water. In nine hours from mixed on the ground, it will support an 18 cwt. weight; is a valuable work at Aldermary, and all flower pots, piling, to within 6 ft. above low water mark at the outer pier of the Yarmouth Bridge, at Messrs. Peto's yard at Medina Cement. A new process of Manufacture has, Isle of Wight, has been commenced on the other materials but this cement and can be had. This work can only be had from the spot, and is exposed to the most violent gales on the Channel, so a good one where every German manufacturer had failed completely among. The improvement of the varied manufacture of Medina Cement can superseded by the use of this important manufacture.
CHAS. FRANCIS and SONS, Nine Elms, London; or West Medina Mill, Newport, Isle of Wight.
Agent for Southampton, R. L. PLUDER, American Wharf.

THOMAS FREEN and CO. REGENT'S CANAL, KINGSLAND-ROAD, beg to inform their friends and the public that, since the late fire at their premises, they have entirely RESCUED THEIR MANUFACTORY, and are now ready to supply ROMAN CEMENT and PLASTER OF PARIS in any quantities, direct from their mills. T. F. and Co. further beg to state, that having machinery driven by steam in the machinery, these articles, they trust, will be found fully to support the high character they have always hitherto borne in the trade.

THOMAS FREEN and CO. LIME BURNERS, Wouldham-on-the-Medway. Grey and Chalk Lime supplied by the freight, direct from the kilns, or from their wharfs, viz. Canal-road, Kingsland-road; Wharncliffe Wharf Great Cumberland-place, Hampstead; or King's Wharf, New Wharf-road, Battle-bridge. N.B. Laths, Tiles, Chimney-pots, Plaster, Hair, Watch Goods, &c. &c. &c.

BARROW LIME.—This celebrated hydraulic Lime, from the Rise Lime Stone, can now be forwarded by railway from from the kilns to any part of the kingdom. It is becoming much more generally used for Concrete, and can be supplied ready ground for that purpose. Prices, &c. may be obtained on application to JOHN ELLIS and SONS, Lancaster.

GREAVES'S BLUE LIAS LIME.—The superior manner in which the above is ground renders it cheaper for concrete or stucco than any other lime or cement. The shell lime for mortar is burnt on an improved principle, leaving scarcely any core. The quantity of sand usually consumed by Bricklayers, Builders, and Contractors, of the above, is the best recommendation.
Gibbs, Canning, and Co.'s Blue Vitrified Bricks, Pipes, Jamb-stones, Bends, and Fire Goods.
ROMAN, PORTLAND, PARIAN, ANSTON, and LIAS CEMENTS of the best quality.
BECONTREE, PATIENCE, STOCKS, and other Bricks.
